ASSYRIAN

ASTRONOMICAL TABLETS.

SELECTED AND TRANSLATED BY
REV. A. H. SAYCE, M.A.

THE following are specimens of the numerous astronomical and astrological reports with which the Libraries of Assyria and Babylonia abounded. The tablets from which the translations are made come from the Library of Assurbanipal: but the larger part of them are merely later editions of works composed for Babylonian kings before the 16th century B.C. This is the date of the great astrological work, consisting of 72 tablets or volumes, a small portion of which is translated below. The inscription numbered VII. has already been translated by
Dr. Oppert. The originals will be found in the *Cuneiform Inscriptions of Western Asia*, Vol. III, plates 51, 54, 58, 59, 60, 61. It is much to be regretted that many of the records are in a very fragmentary condition, the first and final lines of the tablets being lost.
